Date of Birth : 17th Feb 1999

SUMMARY

Dynamic and results-driven Front-End Developer with 2.5+ years of hands-on experience building intuitive, user-friendly web applications. Skilled in managing the full project life cycle from concept and design through development and deployment, while collaborating seamlessly with cross-functional teams and stakeholders. Committed to delivering high-quality solutions on time and aligned with client objectives.

EXPERIENCE

Front-end Developer

ReclameHub

Noida

- Spearheaded the development of 12+ web projects, showcasing a strong command of React and JavaScript to create visually appealing and user-friendly interfaces.
- Successfully implemented responsive design principles, ensuring optimal user experiences across various devices and browsers.
- Collaborated closely with cross-functional teams, including designers and back-end developers, to translate UI/UX concepts into seamless and high-performance web applications.
- Contributed to the optimization of website performance, resulting in faster loading times, improved user engagement.
- Demonstrated strong problem-solving skills and an ability to meet project deadlines in a dynamic and collaborative work environment.

PROJECTS

Reclamehub, icanenergy, jmeducation, opendesignstudio, fixitup, Alutuff

- Created and enhanced front-end user experiences using React.js, JavaScript, Redux , and RESTful APIs .
- Developed a mobile-responsive user interface using CSS Grids to optimize layout and design for various screen sizes.
- Integrated APIs to dynamically list products and implemented various contact and address forms for enhanced user interaction.
- Built app with react while managing state through Asynchronous redux action using redux thunk.
- Implemented the react router dom to allow nested restful routing.
